N-Queens

Knights Tour

High Score

There will
be a chess
board in the
background
here

N-Queens Problem

Time:
of Queens:

This is where the N-Queens problem will be displayed. It will be a chess screen with a queen object that can be dragged onto the board by the user. The piece will auto-lock to the specific tile. There will be a high score counter at the top of the screen that displays the time and the amount of queen pieces that have been placed on the board.

Knights Tour
Problem

Time:
of moves:

This is where the Knights Tour problem will be displayed. It will be a chess screen just like the N-Queens problem.
